Настройка маршрутизаторов Tenda
для работы по PPPoE в сети компании Сетилайт

1.   Подключите устройство к сетевой (плате) компьютера посредством кабеля (витая пара, идет в комплекте с устройством) в порт LAN(порты выделены желтым цветом), обозначенный как LAN 1. Кабель приходящий от провайдера включите в INTERNET Wan (порт выделен синим цветом). Подключите питание.

2.   Запустите браузер (Internet Explorer, Opera, Mozilla Firefox, Google Chrome) и в адресной строке наберите http://192.168.0.1/ для подключения к устройству. В появившемся запросе Administrator Password вводим новый пароль на маршрутизатор (по умолчанию "admin") и подтверждаем его.
3.   Далее переходим в меню "Advanced Settings" .

4. Заходим "WAN settings".
